

HTML Comprehensive Notes

Level 10: Advanced Web Storage & Microdata

IndexedDB

For structured storage and querying capabilities similar to SQL.

Microdata

Microdata allows you to embed structured data within your HTML to enhance search engine visibility:

html

Copy code

```
<div itemscope itemtype="http://schema.org/Person">
  <span itemprop="name">John Doe</span>
  <span itemprop="jobTitle">Web Developer</span>
</div>
```

Local Storage Methods

Methods such as `setItem()`, `getItem()`, and `removeItem()` are used to manage data in local storage effectively.
